7 Little White Lies: The Conspiracy To Destroy The Black Self-Image

Synopsis

7 Little White Lies is a masterful analysis of the racist propaganda that people of African descent have lived with for generations. The propaganda has been so dominant, that few realize that it is still in play. The book focuses on outlining 7 of the most dangerous but common "mistruths". It describes how these misconceptions have metastasized into other popular notions, and then thoroughly defeats them. The text, which is scholarly written but accessible, expounds on these common lies: 1. Caucasians are the Original People 2. Ancient Africa Contributed Nothing to Civilization 3. The Ancient Egyptians were 'Caucasian' 4. Hebrew Slaves Built the Pyramids 5. Africans Were Savages When the Europeans Enslaved Them 6. Columbus Discovered America 7. Abraham Lincoln Freed the Slaves

Customer Reviews

The paradox of education is precisely this- that as one begins to become conscious one begins to examine the society in which he is being educated. This is why Seven Little white Lies is an very important book to read. Because, it will open a consciousness that will enthrall you towards what lies beneath the lies. Very, uplifting for those of us who do not know the devilish society we live in.

Lies are just what they are lies until they are uprooted and challenged. I assure you the author of this book can and will validate the facts. I have read the book and found the facts what they are facts and lies are lies. In all due respect purchase and share this book with your family like I did.

Jabari's insights, based on a lot of knowledgeable research, needs to be shared with all people who care about the survival of the world we live in at this moment in time - our future depends on it. His book needs to also be included in our school, college, and university curriculum. Learning the truth and supporting it, is necessary, for our mental health. After reading this book, our youth will have more self-esteem and make better choices in their lives. Especially for Black people - it's a must read. He talks about the many contributions Africa made to advance civilization. This is a great book.

This book was a great read and informative. Confirming some questions that I have wondered about. Answering LIES for my children to understand. The best part is the research information listed at the end of every chapter and at the end of the book so that you can continue to research more on your own. "Giving away our inheritance to be someone we are not." - Jabari Osaze

This book is a wonderful resource. It dealt in great detail of historical facts and shines a light on many mistaken truths and myths about African history, slavery, and the re-writing of European and American history.

This book is a MUST HAVE if you want to know the truth about African contributions to humanity and the lies (as the title clearly states) that have been told against Africans and people of African descent. It is brilliantly written and clearly explained.

Exceptional read.

Everyone should read this book.

Loved it
