Share the treasured gift of laughter with your child! Josie Bissett's enchanted new book is well on its way to becoming a celebrated children's classic. A loveable monster with big puffy mitts has just flown in from Planet Tickle. His mission is to bring joy and laughter to Planet Earth. How? "The best sound in the world is the glorious sound of my children laughing. Children love playfulness. They love silliness and they LOVE being tickled! Laughing together creates a bond like no other. This has become the nightly reward for our almost two year old for picking up her toys before bed. Whether it is only her and I or my husband and older daughter join in we have a great time giving her tickles every time the word tickle is read aloud. The well made box and fuzzy mitts allows us to make it an event not just simply a story. I can't say it is the best written book ever but it is silly and fun and has a mostly great rhythm. Highly recommend for toddlers!

I gave this to my nephew on his 4th birthday thinking that his 1st reaction after opening it and saw it was a book would be to toss it aside and continue to excitedly rip open all his new toys. After the novelty of those wore off and he settled down and was willing to sit still to give the book a chance, only THEN would he fall in love with it. (He's not easy to impress for a 4 year old lol) Much to my surprise, he opened up the adorable box it comes in and his eyes lit up as he put on the tickle monster mitts and immediately asked me to read the book to him (twice and then tried to get me to read it to his dad because he thought it was the funniest book ever) all while he still had at least 15 big toys waiting to be unwrapped. He wore the mitts around for hours showing them off to everyone at his party and tears were shed by quite a few of his friends who wanted their own mitts!

Once in a while you come across that book that just has that extra magic in it.. one that your kids look forward to when you bring it out and one that they take extra special care of. Tickle Monster is one of those books. I have seen my three kids giggle, laugh and bond while they read this book to each other. They each have to have a turn being the Tickle Monster and wearing the gloves and I am amazed that at that age range (a 2 year old, 6 year old and 9 year old) they each find something special and inclusive about it. We love this book and recommend it to all our friends. It makes for a

very special birthday gift with its beautiful magnetic box, soft and cuddly gloves and beautiful book.

Super cute story and so fun to be able to interact. I have given this as a shower and as a birthday gift and always get the most positive response! I don't always get to be there for the story telling, the fun part, but it has been my go to shower gift because of the positive response I have received from those who have. Everything is as pictured and appears super sturdy time with a young child prove destructive but when I received the book it appeared well crafted. The box appeared very durable with magnetic closure and could very easily be re-purposed.

This is a wonderful gift to give to kids at about the age of three or so. It's a fun book to read with kids and they really seem to get into it. I have bought this is a gift for the family whose kids have everything -- and they did not have this and had never heard of it. It's really a diamond-in-the-rough of gifts and the bonus is that it encourages reading. Very interactive, but not screen or app based. It's a ton of fun and a wonderful, unique gift to give (and to get, which is how I came to know about it in the first place).

This is a really fun book to read with my 19 month old son! First he wants to put on the gloves, but then he wants Mommy to put on the gloves and read him the book and chase him around the room and tickle him! He actively pulls this one off the shelf and hands me the gloves. This is the sign of a winner!

Our family has had the Tickle Monster Laughter Kit for over a year and we LOVE it! The "kit" comes in a sturdy box with a book and two blue furry gloves that have open holes for your fingers to stick out of. The gloves will fit small hands to average adult male hands. The book is about a monster who comes from Planet Tickle and then returns home at the end. It is a book meant to be read aloud to your children as you act out that you are the tickle monster. There is a lot of build up to the tickle monster tickling different parts of the child (from toes to knees to underarm pitties), which makes it wonderfully fun for the parents and children. I have bought this as a gift and everyone who received it has reported back to me that they absolutely love it as well. I suggest it best for children ages 2 to 5, but my 8-year-old loves it as much as the younger kids. In fact, she sometimes likes to pull it out and read it to the younger kids.

I bought this for my son to give my husband for Father's Day and it was perfect. The gloves are a

little small for my husband, but he makes them work and they have tickle monster time. The book is super cute and they keep everything in the box. It makes for a special time when reading this book. Totally recommend this.
