## Customer Reviews

This is an extraordinary travel guide. There are many sights and suggestions (of eateries and lodgings, in particular) that are not included in other guide books. The tips on traveling by car are good, especially considering that it carries the "Michelin" flag. All in all, the layout and contents give readers a fresh perspective when planning to travel to the Bordeaux and Aquitaine region.

The Green Guide, which indicates coverage of Aquitaine, does not cover the same area as the Michelin Map No.524 titled Aquitaine, leaving important cities such as Perigueux out of the Green Guide. I think the two publications should cover the same areas.

As always, nothing is better than the Green Guides if you want to avoid missing something spectacular.

It seems to cover the area well, but as I am in the southwest now I will check it out along with the one on the Dordogne.

disappointment. The previous green guides were vastly superiorA

As usual another great Michelin guide giving great background and suggestions.

always an excellent guide whatever the country

looks like a brand new book
