Palm Reading For Beginners: Find Your Future In The Palm Of Your Hand (For Beginners (Llewellyn's))

Synopsis

Palm reading is a lot easier than you may think. No cards, no coins, no charts of the planets-just a hand and the knowledge in this book. Whether your interest is serious or casual, Palm Reading for Beginners will open a world of insight into yourself, your friends, your family, and your future! Announce in any gathering that you read palms and you will be flocked by people thrilled to show you their hands. When you have finished Palm Reading for Beginners, you will be able to look at anyone's palm (including your own) and confidently and effectively tell them about their personality, love life, hidden talents, career options, prosperity, and health.

In my home I have a large collection of books. Maybe you have a large collection, too. Perhaps you have a few books that are your favorites and you reread them every year or two. But if you have favorites, why read others? The answer, of course, is so that you can understand and experience new things. Maybe you'll find a new favorite, too. For many decades I have worked with astrology. It's my favorite. But I have also worked with the Tarot, runes, and other divinatory systems. In recent years, palmistry seems to have been overlooked by most readers. Perhaps they think that clients won't see the magick unless there are mystic tools on the table. I think this is shortsighted. Palmistry can be a wonderful addition to your divinatory skills and can be used at a moment's notice. And one of the best introductions to this ancient art is Richard Webster's Palm Reading for Beginners. One of

the most famous palmists of all time was Count Louis Hamon who used the name "Cheiro." He lived into the 20th century and looked a bit like Franklin D. Roosevelt. Because of his amazing skills he was in demand by famous personalities all over the world and he hobnobbed with them all. Now, I can't guarantee you'll become as famous as Cheiro, but I can assure you that with this book you will learn how to read palms. You'll learn the meaning of the shape of the hand and all the lines. You'll be able to interpret the all of the major and minor lines, the phalanges (sections of fingers) and the nine mounts on the palm. The book also shows how you can blend all of the information into a coherent, inviting, and exciting reading. So whether you want to learn your first method of divination or want to add to what you already know, this is a book you should study and use.

Richard Webster was born and raised in New Zealand. He has been interested in the psychic world since he was nine years old. As a teenager, he became involved in hypnotism and later became a professional stage hypnotist. After school, he worked in the publishing business and purchased a bookstore. The concept of reincarnation played a significant role in his decision to become a past-life specialist. Richard has also taught psychic development classes, which are based on many of his books. Richard's first book was published in 1972, fulfilling a childhood dream of becoming an author. Richard is now the author of over a hundred books, and is still writing today. His best-selling books include Spirit Guides & Angel Guardians and Creative Visualization for Beginners. Richard has appeared on several radio and TV programs in the United States and abroad including guest spots on Hard Copy, WMAQ-TV (Chicago), KTLA-TV (Los Angeles), KSTW-TV (Seattle) and the Mike and Matty Show (ABC). He currently resides in New Zealand with his wife and three children. He regularly travels the world to give lectures, workshops and to continue his research.

Excellent book. I read it in two days, could have read it in one day if I wasn't interrupted. Pictures were easy to understand. Every part of the hand and every line on the hand was explained. This was my first book on palm reading and I must say, I've learned a lot. I definitely recommend this book.

It has a great deal of information but lacks enough pictures and drawings to be really useful to those new to palmistry. It is a good "go along" with better illustrated books.

Purchased this for my Hippy Trippy buddy who thought it was out of this world, she throws parties

frequently and now does palm readings too! I purchased this with the Palmistry Hand model and it was a perfect compliment to each other.

Very good book for beginners. Gives detailed explanations. Easy to follow. User friendly. I am trying to find a real live person to teach me how to read palms. I currently read Tarot cards Professionally and so many people want their palms read as well. There is definitely an art to this . I have purchased a few other books that were not as helpful.

simple book to read and understand

for a friends birthday

Fun to know.

Good book
