Melissa Bahen writes Lulu the Baker, a food and lifestyle blog focusing on fresh recipes, simple projects, and modern country life. She lives in western Oregon.

Absolutely gorgeous book full of recipes, crafts and traditions throughout the year. The recipes (many from the authors family) are the type that I would add to our regular rotation, both sweets and savory and all easy to find ingredients. The craft projects are so elegant and unique, the kinds of

things that look store bought and you would be happy to display in your home.

This book has the perfect blend of recipes and craft. It's also beautifully put together and the photos and illustrations leave me happy and inspired.

Loved this book. It has great ideas for gatherings all year long. There is crafts and food and history of the Scandinavian people. We will definitely use them all year long.

I received the book yesterday and spent the entire evening engrossed in its pages. I like how the book is separated into various "themes" and the activities/crafts, settings, as well as recipes all follow that theme. At the back of the book, there are several additions to activities - cut outs, design patterns, etc. I do like the recipes and can't wait to try several of them, but do feel that they are a little bit scattered and continue on multiple pages, which may make it a little bit hard to actually follow when cooking. Overall, I'm giving it a 4/5 because the book is stunning and inviting, but I think it could have been organized a little bit better.

Was so excited to see the Norwegian recipes, but alas none from our traditional Norwegian recipes, especially Christmas cookies and rice cream. Not even a mention of lutefisk, but then who likes to eat it. The layout of the book is lovely and the recipes seem very interesting. I haven't had time to try them yet, but am looking forward to especially the Woodland Tea Party. The artwork and crafts are lovely.

Always like Scandinavian food!!

The book is a stunning homage to the author's Scandinavian heritage- Beautiful photography, craft ideas and delicious recipes. I felt right at home while reading even though most of the ideas were new to me. There is a familial warmth in her writing and I wanted to jump right in and share the traditions with my own family! And, I did! We tried the twig flags and tea party section (I have two little girls, so that chapter was the first to be done!) I cannot wait to try some of the holiday ideas!

I LOVE this book!!!! Wonderful photos, thoughtful design. My great, great aunt Ella (full Swedish) would have loved this book! As I flipped through the pages it reminded me of her in many ways. She too had a love for her culture and the food. Looking forward to more from LuLu the Baker!
