Customer Reviews

I didn't pay enough attention when I ordered this book; didn't realize it was 9 years old. Not much use but it didn't cost a lot so no great loss. Certainly not worth sending back.

Not what I was looking for! Book only covers a small variety of stamps. Also, flipping back & forth from pictures to descriptions causes confusion. Maybe a hard cover book might be better. I did find a very good hard cover book with most all US stamps & easy to check values.

It's good if you need to list the stamps you have and how much they are worth. Sometimes it is hard to find the stamp. It would be better if it also gave the Scotts catalog numbers.

Not much info in that tiny book. There are much more informative stamp books out there. Total cop-out on any possibly valuable stamps telling you to see an expert. Really?

did not know it was so dated

This is ok but I didn't find the exact stamps I'd like to have known the value of, perhaps if I'd spent more time searching for them and I still might do that.

Interesting and a lot of useful information.

good price reference for 2 or 3 years, then it will be outdated, still good to ID stamps
