I Saw It Too!: Real UFO Sightings

Synopsis

Although many adults believe they have had encounters with strange creatures from alien spaceships, not everyone has actually reported their experiences to official investigators. But if you're a young person it's even less likely that people will believe you and more likely that your story will never be officially recorded. After all, who would believe a kid? *I Saw It Too!* is the first collection of stories told by children, documenting what they saw and when they saw it. These accounts are real cases of UFOs they've seen or alien creatures they've encountered that were reported to government or military officials, UFO investigators, and journalists. Inside you will find eighteen of these strange, fascinating, and believable tales recounted by young people from around the world with story illustrations by Stacey Archer with Lonigan Gilbert. The truth is really out there, and renowned ufologist Chris Rutkowski has tracked it down!

Customer Reviews

This is a modest little book that is clearly intended for young people. The stories are presented in a simple, story-like style, with questions for the young reader to consider following each chapter. I would recommend for the right reader, but the serious UFO buff will find nothing new or particularly interesting.

the WORST thing about this book (apart from the bogus 'sightings') is the way the 'author' claims to know the 'thoughts' of the people in it. all the characters have the 'same' mannerisms and foibles and the ONLY original thing in the pages are the 'aliens'. I was mistaken to actually 'fork out' money to buy this drivel -- 'don't' make the same
