Customer Reviews

This map is highly detailed--much better than the others I've seen. The color scheme is well-considered, so it's easy to read. If you're going to less-travelled locations (I'll be on an extended birding trip), the other available maps just don't have enough granularity. This map even has all the major trails in the national parks in good detail. It's sturdy and folds nicely, but is too large for most pockets. (It will fit in cargo pants, though.) If you're going to the usual tourist locations, other maps will do. If you want to get off the beaten track, get this one.

Got it as gift for someone who is going there. They were thrilled!

We used this quite extensively on our trip and help us plan the day. We had to use a lot of sticky tape to keep it repaired.

GOOD MAP.
