Pavel Tsatsouline, is a former Soviet Special Forces physical training instructor, who helped Dragon Door Publications initiate the modern kettlebell movement.

Informative. Not amazing but worth reading.

This guy is reeeeeeaaly good at teaching us how to be limber!

Loved this book. Have been doing the mobility routine from the book for about 2 months and I no longer have any elbow issues from pull-ups and my deep squat is better than ever

If your clients can do these exercises, they won't need this book in the first place.

Outstanding! I bought the kindle version, just what I was looking for. It is in color and there were no advertisements! I have been doing the exercises every day, they work really well and are easy to do.

I started following these routines in the morning. They are a great way to wake up your joints and nervous system. I'm almost 50 years old. The snap, crackle and pop of my body each morning is greatly reduced. Thank you, Pavel!

Book was good and full of great joint information I bought two copies. One for home and one for the Gym !
