Moms For Hire: 8 Steps To Kickstart Your Next Career

Synopsis

Moms For Hire is a stylish, eight-step guidebook for moms who want to re-enter the workforce and amp up their professional mojo. Whether you downsized your bustling career to raise your children, or you chose the full-time job of being a stay-at-home mom, you now feel ready to get back in the work game, but re-entry can be intimidating. Using creative exercises, advice, and anecdotes from well-known working moms, this book will become a guide to creating your own successful re-entry strategy. From simply giving voice to your desire to work, to learning how to negotiate the best deal once you land the dream job, Moms For Hire guides you through each step of the process in a way that keeps you motivated and inspired. The simple promise is this: if you commit one hour a day to this book, you can find rewarding work. The search for fulfilling employment requires plenty of will, stamina, and support; let Moms For Hire be your devoted partner as you step into this new, life-changing adventure.

Deborah Jelin Newmyer is a film and television producer who worked at Steven Spielberg's Amblin Entertainment for twelve years. As a studio executive, Newmyer developed films such as Jurassic Park, The Color Purple, Goonies, Schindler's List, and The Bridges of Madison County. In 2006, Newmyer inherited Outlaw Productions from her late husband, Bobby Newmyer, and currently is a freelance film and television producer with Sony Pictures Entertainment. She resides in Los Angeles, California.

This book is fantastic! I had been feeling alone and isolated, after being home with my child, and wishing and wondering how I could reenter the workforce. The statistics cited in the book show that us mothers a huge part of the potential workforce that is ignored. This book is warm and funny and fun to read, so I felt like the author was a friend and champion, not just a 'how to' robot. It may take some time to get back to work for myself, but there are lots of interesting anecdotes to refer to along the way. I am really happy I bought this book!

This is such a worthwhile book for anyone wanting to relaunch! I coach women wanting to reinvigorate their lives and I walk them through the exploration process of finding and actualizing their "Encore Careers" so I know the terrain. This book is the perfect companion...but also strong enough as a stand-alone reference source and guide for anyone not wishing to utilize a coach. It is filled with useful, current advice, loaded with wisdom and easy to follow step-by-step guides that prompt the reader to take each new step forward. It's written in a way that breaks the process down into comfortable actionable goals, making an otherwise (often) overwhelming endeavor totally sustainable and achievable. As a coach I will definitely recommend it! It makes my job easier since it is written with such clarity and organization and since it's perfectly aligned with the support and messaging that I'm giving as well-- so it will serve as an excellent foundational at-home component. It is well researched, well presented and the tone is that of a wise sister. Excellent resource- highly recommend it!

My ex wife bought this book and now she won't stop talking about it. Why couldn't she get the book

when we were still together? This reminds me of how Steve Jobs came back to Apple and revived the company AFTER I had sold my Apple stock. This book will probably change a lot of lives, but it's too late for me.

If you are looking to make a change or just curious about how other people have done it or want a great gift for a stuck friend or think you have made a successful change--this book is for you. Smart and inciteful. I really enjoyed this fast and easy to read "how to" book for getting it done.

This time in a mothers life can be challenging and Deborah's book targets all the important questions in a fun, inspiring and clear way to help you forward. This book is tremendously helpful but also truly enjoyable to read.

HOLY CRAP! I LOVE THIS BOOK!! every page of my dog-eared copy of Moms for Hire has notes and underlined sections - it is so damn helpful! I am gifting to all the women I love! READ THIS BOOK - I promise it will inspire you and immeasurably help you to recharge your professional mojo!BUY IT NOW!

I am a mom of 3 little angels and I recently started looking to rejoin the working world. After my youngest was born, I felt like my main purpose was to be a stay-at-home-mom to ensure that my children's upbringing was under my own style. After talking with my husband and agreeing to hire a nanny, I began to realize that it's o.k. to have more than one purpose. When I decided to purchase this book, my motivation to find a job after 9.5 years of solely raising my children was not passionate. After initially skimming through defined sections, I decided to sit down and give the entire book a read. When I say that this book changed how I think and feel about myself, I am not kidding. I feel more confident in my ability to sell myself to potential employers, commit to personal organization, and have an I-can-do-anything attitude when approaching a new project. Very helpful read!

The main benefit of this book is the author's encouraging tone toward her readers. She has a lot of motivating energy that comes through the pages. I only wish an editor had cleaned things up a bit.
