Mexico Boating Guide (2nd Edition)

Synopsis

This nautical guidebook for cruising boaters was updated in March 2017, so it's the most up to date. Contains 398 pages, 185 GPS charts, 450 color photos: written by professional mariners, experienced & active yacht cruisers. Mile by mile, no gaps: Mexico Boating Guide covers the outside of Baja, the entire Sea of Cortez (100s of destinations) to Puerto Vallarta, down the Pacific mainland Gold Coast and Costa del Sur to the new Puerto Chiapas. This nautical guidebook is a Must-have for the Baja Ha Ha and Cubar participants. GPS charts of the tiny cruising anchorages, villages, ports for fuel, provisions, all the marinas, haul-out yards, local services. Rains' 185 new GPS-accurate charts were created on site show anchoring details for tiny bays that are too small to appear with sufficient accuracy on government charts. Rains' 450 photos are jaw-dropping beautiful, but show critical approaches by sea, not just pretty sunsets. No fluff. Crew List forms, Resource Directory to all the marinas, fuel docks, haul-out yards for repair or dry storage. Made in the USA, the new Rains Guide is the most accurate, up to date and thorough authority for boating in Pacific Mexico.

We keep our guidebooks UPDATED - this one as of March, 2017. ... The guy who complained about 'not for navigation' has become kind of a joke, because veteran cruisers know that every nautical guidebook has 'not for navigation' on the charts as a legal requirement. Durable new Smyth-sewn binding prevents pages from being ripped out while this guidebook is in active daily use in the cockpit or on the bridge. New 4-color charts are much easier to read. Large 12-point type for faster legibility.

Meeting the author and her husband at a seminar they presented in San Diego gave me an even better insight to the dedication and detail they have put into this publication. The Third Edition is now in print, however this copy came to me with an addendum insert that covers most of those updates. The specifics of travel, hints and suggestions for safe passage and anchoring as well as the unique information about marinas, port captains, radio contacts and areas of concern all capture the essence of safe and enjoyable cruising for the novice through the seasoned cruiser.

nice book, sometimes tough to link the text with the displayed charts

Lots of useful information, use in conjunction with Breeding & Bamsmer's books.

Yes it's great, We have to check out the accuracy now, by sailing down the Mexican coast this winter.

Very compleere Info on previously un explored areas

Very accurate

Highly rated by Latitude 38 magazine and The Log. A great investment with a ton of detail on the Baja and the mainland down to Manzanillo where my interests lie.

Excellent overview with numerous specifics and details. Easy to use, accurate in it's navigation info, with very helpful pictures and maps. Highly recommended!
