Killing Custer: The Battle Of Little Bighorn And The Fate Of The Plains Indians

Synopsis

The classic account of Custer's Last Stand that shattered the myth of the Little Bighorn and rewrote history books. Custer's ill-fated attack on June 25, 1876, has gone down as the American military's most catastrophic defeat. This historic and personal work tells the Native American side, poignant revealing how disastrous the encounter was for the "victors," the last great gathering of Plains Indians under the leadership of Sitting Bull. Telling of the pride and desperation of a people systematically stripped of their treaty rights, hounded from their ancestral hunting grounds, and herded into wretched reservations, *Killing Custer* reveals how this defining moment in American history was no more a "Last Stand" than a final celebration of waning power and freedom.

Book Information

Paperback: 320 pages

Publisher: W. W. Norton & Company; (1st,1994); 1st thus(#'s 1-10) edition (February 17, 2007)

Customer Reviews

Novelist Welch (*Fools Crow*) and documentary filmmaker Stekler collaborate on what is to date the best reconstruction of the Little Big Horn campaign from a Native American perspective. Eschewing melodrama and making sophisticated use of oral testimony and recently developed archeological evidence, the authors present an inevitable clash of cultures brought about by white greed. They describe the success of Sitting Bull's call in 1876 for one last big hunt and one last big fight before the Plains Indians' way of life was to disappear forever, along with the buffalo that sustained it. Welch and Stekler highlight the initial overconfidence and ultimate panic of Custer's troops, whose commander made every possible mistake on June 25 against enemies with nothing more to lose. A major literary and historical contribution to a complex subject. Illustrations. Author tour. Copyright

Novelist/poet Welch has produced a compelling history of the Indian wars of the northern Plains with insights from his firsthand experience with tribal life. Copyright 1994 Reed Business Information, Inc. --This text refers to an out of print or unavailable edition of this title.

Excellent book about not only the Indian-US government battles before during, and after the Battle of the Little Bighorn but also the impact of the government's history of violating treaties and the white man's efforts to extinguish the Indian's presence on their homeland.

A good book about the battle with good pre and post battle.

Very thorough historical perspectives from both sides

"History is written by the winners." All except the story of Custer and his 7th Cavalry. This book completes the story as told by the victors. Good read, well written. Highly recommended for history buffs.

perfect

excellent ,could not put it down.

A much more balanced summation of the Indian wars.

Book is decent shape with some writing in it. The writing is not disturbing. It is aged paperwise, but in sturdy shape. Arrived on time as promised.
