Got this for my high-school age son to help him study for the exam. He said it explained the concepts better than the textbook. Wish we'd known about it sooner! For his next AP class, we'll get the book as soon as possible so he can use it as the class progresses, and not only for exam prep.

The kid picked these up to study prior to the test. Said they worked well in preparation.

A lot of good info, will prepare you. Even has a score calculator for you to measure what you will get on the exam. A little pricey but I was quite satisfied.

Good serviceable practice of the AP Enviro Science Exam.

Really helped me study and do great on my AP test. Love Princeton review, they always have the best studying materials, hit all concepts. Overall great product.

Has tons of info that was super helpful in studying for the test. Would highly recommend
