Basic Skills Workbook For The GED®, TEST, TASC, And HiSET (Barron's Pre-Ged)

Synopsis

This updated and revised guide is designed to meet the needs of students of all ages who are assessed below the high school level. The passages and exercises are specifically targeted for lower-level readers while focusing on higher order thinking skills. With this foundation, students will be able to advance to GED® , TASC, and HiSet-level materials with confidence.

Writing – offers key information about sentence structure, paragraph organization, building an argument, and analyzing texts
Mathematics – examples and instruction in specific math concepts; strategies for solving word problems; instructions for using a calculator, special test format questions, and graphic material
Science – presents vocabulary used in science and offers basic scientific concepts pertaining to life science, earth and space science, and physical science
Social Studies – reviews key concepts and topics in U.S. history, government, world history, geography, and economics
Reading – provides a foundation in comprehending types of documents and passages found on these exams in areas of fiction, non-fiction, poetry, and drama
Tests appear before and after each study unit. The first is a brief diagnostic, and the concluding tests help students measure what they have learned in the unit. All questions come with thorough answer explanations.

Index

Using this as a prep-course for two high schoolers and it's been working well. Very user friendly and easy to schedule.

Awesome book to help refresh your memory

DO NOT BUY FOR GED. I coached a student taking the GED, and she was NOT prepared. The math section does not cover the trig, geometry, and algebra skills she needed to know for the actual test. The book also says the Social Studies section has an essay portion, which the actual test did not. And above all, the book has several typos/grammatical errors.
