BMTCN[®] Certification Review Manual

Synopsis

The BMTCN[®] Certification Review Manual is an essential resource for RNs preparing to take the blood and marrow transplant certified nurse (BMTCN[®]) examination. Chapters are based on the BMTCN[®] Test Content Outline and covers eight major subject areas; basic concepts and indications for transplantation, types of transplants and sources of stem cells, pretransplant care, preparative regimens and stem cell infusion, prevention and management of graft-versus-host disease, post-transplant issues, survivorship issues, and professional practice. Each chapter includes a series of multiple-choice study questions similar to those found on the Oncology Nursing Certification Corporation BMTCN[®] examination. As the only nationally accredited test of its kind, the BMTCN[®] certification identifies nurses as being adept in the specialty of blood and marrow transplantation. This study manual is an essential learning resource for your certification preparation.

Book Information

Paperback: 320 pages

Publisher: Oncology Nursing Society; 1 edition (September 19, 2016)

Language: English

ISBN-10: 1935864882

ISBN-13: 978-1935864882
