Berserk, Vol. 25

Synopsis

Guts the Black Swordsman just can't seem to find a little peace. On his way to the idyllic tranquility of his miniature pal Puck's homeland of Elfhelm, Guts and his companions, at the behest of a local witch, assist a village beset by a plague of hideous and deadly trolls. Assisted by the witch's disciple, Schierke, the warrior band manages to turn the tide against the beasts, but when a monstrous ogre hits town, a tide of another kind is needed, a mystic flood to wash the town clean. But when Casca and Farnese are carried away by the flood, they become prisoners in the troll's den, where a fate far worse than any imaginable death awaits!

Customer Reviews

For as wonderful as the art, the world, story, the epic nature, and the creativity of this story is, it is the characters that make me come back to this story again and again and again. Every one of the main cast is thoroughly fleshed out, they all face their short comings and continually grow in this series and especially in this novel.

Nice

The last few book start to go in the mud a little bit but still very interesting still keeps you wanting to read more

I absolutely worship the berserk series it has kept me enthralled since the beginning but honestly I

hope it ends soon, too many conclusions its passing over

I love the berserk series and Ive been collecting the manga and i'm sad to see that are have been so many rumors regarding berserk being canceled. hopefully there will be enough support to continue the series. great freaking series if anybody wants an amine that is by far superior to a lot of borderline crap manga's today.

It is finally time for Guts and his friends to face the trolls, and there are a whole bunch of them! This basically takes this whole volume, but even though it is concentrated on this fight, there is enough developments to keep things interesting. For example, we just barely got introduced to the trolls in the last volume, but already in this one we get more players in the party when an ogre joins in, not to mention another fantastic creature with some intriguing capabilities. In the middle of this, we see Farneze finally finding a new path in life, consisting in protecting Casca, and right away this is seriously tested. There are two things that I particularly enjoyed throughout this volume. The first one has to do with seeing Serpico finally unleashed and showing his full potential as a character and as a fighter. The other one has to do with the priest of the town attacked by the trolls, his difficulty accepting the help of a witch and the limitations that religion puts upon his thinking. This is a recurring theme with Miura and there are many portions of the story dealing with these topics and that could probably be interpreted in many different ways. I found this volume to be entertaining, though the plot does not evolve nearly as much as in some of the previous ones. But that's OK, it was time for a nice slug-fest.

I like the troll cave part aswel as a old enemy returns and guts is placed in more explosive danger
