My son loves the Wild Kratt books. We were surprised and disappointed to learn that we waited 6 months for the release of this book, which is just a collection of 5 of the titles we already own. I re-read the description to see if maybe I just missed it, but couldn't find it listed anywhere that this is Wild Animal Babies, Wild Predators, Insects & Spiders, Wild Reptiles and Wild Sea Creatures.

Great book for this price! Wish I could find the whole set in these five in one books. It is about a second grade reading level but my first grade grandson can read this book especially knowing the

program as well as he does. It is a great first reader that motivates reading!

My son is thrilled with this new book, but as I just realized others have posted- the pages are coming out and we haven't even read the entire thing yet!

The stories are awesome and my five year old loves the book. The book itself just started falling apart in the same day we received it, pages are not attached very well. But can't beat the price!

Book content is GREAT but the pages started falling out in sections the 2nd time we read it :(

note that these are the same stories as sold separately

The book and contents of the book are fantastic. However the binding is terrible. This is the second time we bought the book and the binding has come apart both times.

This book provide 5 individual stories packed into one. My children enjoy this book because they love the wild Kratts cartoon that provide alot of information and details regarding animals, their habitats, and uniqueness.
