A Knight Of The Seven Kingdoms

Synopsis

A century before A Game of Thrones, two unlikely heroes wandered Westeros.... A Knight of the Seven Kingdoms compiles the first three official prequel novellas to George R. R. Martin's ongoing masterwork, A Song of Ice and Fire. Before Tyrion Lannister and Podrick Payne, there were Dunk and Egg. A young, naïf but courageous hedge knight, Ser Duncan the Tall towers above his rivals - in stature if not experience. Tagging along with him is his diminutive squire, a boy called Egg - whose true identity must be hidden from all he and Dunk encounter: for in reality he is Aegon Targaryen, and one day he will be king. Improbable heroes though they be, great destinies lie ahead for Dunk and Egg, as do powerful foes, royal intrigue and outrageous exploits. A Knight of the Seven Kingdoms brings together for the first time the first three official prequel novellas to George R. R. Martin's ongoing masterwork, A Song of Ice and Fire, set in an age when the Targaryen line still holds the Iron Throne, and the memory of the last dragon has not yet passed from living memory.

Language: English

ASIN: B015G8VIWE

Best Sellers Rank: #49 in Books > Science Fiction & Fantasy > Fantasy > Military #236

in Books > Audible Audiobooks > Fantasy > Epic #301 in Books > Audible Audiobooks > Fiction & Literature > Action & Adventure

Customer Reviews

Somewhere in the 4-5 range. I really liked this book and can't wait for the next. If you are expecting something like GAME OF THRONES you can go ahead and kill that expectation or put it on a shelf to languish. This book is delightfully different. In fact it reminds me of the historical classics like THE BLACK ARROW and IVANHOE. And if it wasn't for a handful of instances with naughty language the story would be suitable for 6th Graders on up. However it does use the C-word for lady bits and

a few other choice words I can't recall at the moment, so it's not a book I'd hand to a youngster. (Editors, come out with a kid's version! You'll make more money) When I first began reading I wasn't sure what I thought but it wasn't long until I got caught up in Dunk and Egg's meanderings through the kingdoms. Dunk is a huge young man that is as close to an honest, chivalrous knight as you can come. Egg is a prince in hiding and then a prince in training as a Dunk's squire. As Dunk is a 'Hedge Knight', which is to say he freelances, they meander from job to job taking in the occasional tourney. They, of course, run across fair maids and evil doers. Adventures spring from politics, jealousy and greed, and the fact that Dunk is still learning his trade and finding his own way in the world. What makes the story so engrossing is that Martin knows his medieval stuff. He knows about the tournaments of the times, the weaponry, the garments, and even the food. All this serves to bring the story alive. And as I sit here typing this review I find myself wondering what Dunk and Egg are doing today. Which means that Martin has done his job admirable. He's made me like the setting and characters so much that I not only care about what great adventures they are working up to, but also about what they are doing when absolutely nothing much is going on. Recommend. ~library find

If you're a fan of The SOFI you'll really enjoy this book. It presents a nice look at the history of Westeros as well as some nice insights to some of the events that have led to the current novels. However, as a stand alone book it would be just as good. The novel kind of reminded me of "True Grit".

It is a well written book that provides some insight into the events of Westeros prior to the "Song of Ice and Fire" novels. It is written differently, divided into short stories versus a full novel. The illustrations are fantastic and help the readers get a sense of the how the characters look and how events develop as the stories are unfolding. It is very interesting to read about the noble families (especially the Targaryens at the height of their power) and how the country came to be as we know it in "Game of Thrones". I recommend this read for any fan!

One of my favorite things GRRM has written. Nice and light, with a very classic, yet plot twisting and dark, fairy tale feel. Highly recommend.

Did not do much to fill out the history of Westeros. It is rather a diversion to the backstory of one lesser character from the main series. It was an interesting story, but not as gripping as the main series.

Love George RR Martin's work and writing. This book is the perfect accompaniment to A Song of Ice and Fire book series. It provides some really great back story to those who are really familiar with the series. Would highly recommend!

Excellent stories, easier to read, slightly different from the first five books of ASOIAF, and still offering George RR Martin's unique style.

A great story of a knight searching for a purpose and a boy who admires him. Looking forward to the next one, for sure. It's a bit more comical than asoiaf which is a wonderful mix of writing from Martin
