Latin America In Colonial Times

Synopsis

Few milestones in human history are as dramatic and momentous as the meeting of three great civilizations on American soil in the sixteenth century. *Latin America in Colonial Times* presents that story in an engaging but scholarly new package, revealing how a new civilization - Latin America - emerged from that encounter. The authors give equal attention to the Spanish and Portuguese conquerors and settlers, to the African slaves they brought across the Atlantic, and to the indigenous peoples whose lands were invaded. From the dawn of empires in the fifteenth century, through the conquest age of the sixteenth, to the end of empire in the nineteenth, *Latin America in Colonial Times* combines broad brush strokes with the anecdotal details that bring the era to life.

Customer Reviews

"In its attention to the African contribution, and emphasis on the agency of actors at all levels of society and from all ethnic groups, Restall and Lane's work distinguishes itself from other broad histories of colonial Latin America. An excellent introduction to the region's historical complexity and diversity, this is an engaging survey sure to ignite interest among a broad array of students." - David T. Garrett, author of *Shadows of Empire: The Indian Nobility of Cusco, 1750-1825* (Cambridge, 2005)"Finally, a textbook that offers a broad panorama of colonial Latin American history as well as diverting asides into many of the fascinating anecdotes so loved by both students and instructors. Restall and Lane, among the liveliest and most engaging historians currently writing in this field, draw from the best of recent and classic historical scholarship to paint a dynamic portrait of colonial

society, civilization, and religion, without neglecting politics or economics. With its detailed overview of the pre-colonial Americas and medieval Africa and Iberia along with a focus on the 'colonial middle,' and concluding with the 'Age of Change,' this text will work well to provide a framework for primary source collections. Latin America in Colonial Times elegantly conveys the nuances of colonial Latin America, never neglecting the details of daily life that capture students' attention. Scholars may even learn something new outside their areas of study." - Nicole von Germeten, Oregon State University

"This beautifully written text brings together the authors' broad geographic knowledge with the most current analysis of colonial Latin American history. Restall and Lane recenter that history around the interactions of natives, Europeans, and Africans and emphasize how, together, they created a new world." - Susan Kellogg, Professor of History and Director, Latin American Studies Program, University of Houston

Latin America in Colonial Times presents the story of how Latin American civilization emerged from the encounter of three great civilizations in the sixteenth century. The authors give equal attention to the Spanish and Portuguese conquerors and settlers, to the African slaves they brought across the Atlantic, and to the indigenous peoples whose lands were invaded.

The included stories were interesting, however, I felt like I was reading a brain dump rather than cohesive stories with a timeline. The writing in each section seemed to jump back and forth, included far too many irrelevant individuals, and lacked structure. At times I had to ask myself if I was reading the correct section because the title and the content seemed very different.

Arrived on time and in good condition

Good condition

As described

This book was required for my college reading (among many others). It was considered out base source as we branched out to the separate aspects of European colonization of Latin America. What could have been contentious historically academic tedium, found in other serious works, this book was fresh with hip phrasing and easy to understand content.

Good book. Came quick.

Came in brand new

The book was in great condition!! recommend it to people taking Latin American History or if your teacher asks for this book.
