The Astrology Bible: The Definitive Guide To The Zodiac

Synopsis

Many of the millions who read their daily horoscopes want a better understanding of astrology--and here is the perfect, comprehensive, and great looking guide to teach them. Written by one of the world's most popular contemporary astrologers, and filled with magnificent illustrations, it covers both traditional and modern forms in a way that beginners can easily understand. The zodiac, elements, qualities, polarities, planets, house, and aspects all receive detailed attention, along with advice on putting it all together and creating a chart. There's plenty of practical guidance for every aspect of life: on how to live in harmony with a particular zodiac partner, identify the career that fits an astrological personality, and use astrology to recognize health problems and find appropriate remedies.

Customer Reviews

Judy Hall has been an astrologer for over 30 years. Her previous titles include Past Life Astrology, The Crystal Zodiac and the bestselling Crystal Bible, all published by Godsfield Press. --This text refers to an out of print or unavailable edition of this title.

I would highly recommend this book! It is broken down into the signs. But then it goes into detail on everything else the house, the opposite of the sign. It even has a section on what would be good gifts for that sign. But it is much more than that. This is THE book if you want to know all about your sign, others signs, how the planets and stars pull everything together. The date and time of when you were born. How you are ruled and what you are ruled by. I love this book!

Surprisingly judgmental or curt / stereotyping in places for a contemporary astrology book.

This book is a little spendy for what it is but I enjoyed it. If your looking for just your own horoscope and astrology reading I would suggest getting something that just focuses on yours. This book was fun to read but seems inaccurate

Very cool book..

Great condition and super informative for a beginner to astrology.

It's basically a teeny tiny reference. Not useful or informative at all!

My wife loves this book!!!

I got this for my friend and she loves it, didn't realize it was only about 4" x 4" but that just makes it easier to carry around which is perfect!
