## Customer Reviews

McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

We have been using this guide for a few years and it really works. Our son has scored in the 99th percentile nationally every year and it is partially due to good preparation using this book. This year we ordered it from and it came without the answer sheet. We called customer service and another one was sent to us right away with the assurance that it would ship with the answer sheet. The replacement arrived without the answer sheet. We've subsequently purchased it from elsewhere and it came with the answer sheet. Its no use without the answers!

There is no answer key. Nothing special about the workbook. Not impressed. I'm sure I could get a better quality workbook at my local bookstore.

This book doesn't have an answer key. To get it you have to pay the Publisher (McGraw Hill) \$20. This was a total waste of money!

My kids had fun with vocabulary and enjoyed geography as written in this book. Much of the content was foreign to me, therefore it was awesome to know that my son will be prepared fully.

As a homeschooler, this book helps me know what my son will need to know for testing purposes. Helpful publication.

If I had read the reviews here first, I would have known that there ARE NO ANSWERS to the questions. Yes, I can answer most questions without a lot of effort, but what a waste of time that is when I am checking my son's work. DO NOT BUY THIS BOOK unless you have many free hours to sit around and create your own answer sheet.

We've used this series with our kids for studying specifically for the Iowa test (to meet CO state homeschool laws) for over 5 years. It is good for that focused purpose. Note that it does NOT come with answer key which you should know upfront. If you want the answers (which I agree is helpful) you must order the teacher guide separately for another approximately \$18-20 dollars. Some years we have studies without the answers at hand, but it is a pain to have the adult "redo" all the work to check it. For us, it is worth the extra money to help our kids be as prepared and confident as possible. If possible, order a few months in advance of the test to give adequate time to prepare.

I found this information on another website: "Exercises for students are in Student Edition only, there are no answers in the Student Edition. Answers and directions are in the Teacher Edition only, there are no student exercises to do in the Teacher Edition." The Teacher Edition is about \$18.
