Customer Reviews

Riders taking part in the San Juan Hut System's Telluride to Moab mountain-bike tour are in for an epic adventure. Over the course of seven heart-pumping days, you'll travel 201 miles, taking in such sights as the 14,000-foot, snowcapped peaks of the San Juans, the 100-mile-long Uncompahgre Plateau, the awe-inspiring canyons of the Dolores River Valley, and the rugged La Sal Mountains rising high above the red desert of Moab, Utah. This handy pocket-size guide provides cyclists with all the information necessary to take a self-guided tour or a fully supported hut-to-hut vacation along this famous trail system, including detailed route descriptions, accurate route maps, elevation profiles, and plenty of extra information about type of terrain, technical difficulty, and area history for each leg of the trip.

Writing for a variety of local and national outdoor and technical publications, Stephen Hlawaty still finds time to refuel his soul by mountain biking, backcountry skiing, and backpacking with his wife Amanda and dog in the surrounding mountains near their Livermore cabin. He is also the author of *Mountain Biking Colorado* and *Mountain Biking Colorado's Front Range* (both FalconGuides).

good book (a little dated) but good description of the trail and interesting history. Delivery was a little slow

Good trail description. Much more than I could get from the group that runs the hut. A large part of the planning is knowing what you will face. The San Juan Hut system organizers will only provide information just prior to the ride'

The Hut to Hut trip was a once in a lifetime experience and the book captured each turn
