Customer Reviews

I bought this book as reference material for my college student. As the content of the book satisfies the need I was a little disappointed in the amount of written entries in the book by the previous owner. This will cause me to weigh used vs new in my future purchases.

GREAT! Thanks

Love it.

The book came right on time and was even better than I expected. It didn't have any rips and had a few places where there was writing. Overall the book looks great and I am very impressed on how good it looks for the price it costs.

Penis drawing on front cover and lots of writing in textbook does not add up to the price I was charged. Not too happy with the condition.
