Eric Sylvers has worked as a journalist and writer for more than a decade in Italy, where he has written about everything from the country's economic woes to bike racing. The California native, outdoor enthusiast, and avid biker has traveled up and down the peninsula many times, including once on foot from the Swiss border to the far southeastern coast (the heel of the boot). Northern Italy with Venice, Milan & the Lakes is his first Frommer's guide. Eric blogs about Italian food, wine, and culture at www.foodieinitaly.com.

Book gave me an agency to contact to be able to see the "Last Supper" within 2 days instead of the 2 month waiting list, of course there was a price. However, my son and I were able to view this beautifully preserved masterpiece and it was worth the extra money, without the book I was unable to find any other way. Also, lots of info on the area + very useful map which gave us a lot of background and must see places.

All good

I bought this because I could not find a specific guide for Milan that appealed. This is an adequate guide for travel information, but I found the Rick Steves' Italy guide to be more helpful and detailed.

Not very practical. Unlike Lonely Planet doesn't give the practical information on every sight. Focuses on big cities and towns and hardly on nature sights and hiking/driving routes.

This was a great book for planning our trip to Venice, Milan, and Lake Como. It was good to be able to read about the various sights to see.

Always love Frommers for great tips on travel and love how they give run downs on transportation, restaurants, and lodging

Used it faithfully on our vacation

I have this in Kindle version as I thought it would be easier to transport on my trip. On hindsight, I think I would have preferred the hard copy.
