Spanish Short Stories For Beginners: 8 Unconventional Short Stories To Grow Your Vocabulary And Learn Spanish The Fun Way!

Synopsis

Improve your comprehension, grow your vocabulary, and ignite your imagination with these eight unconventional Spanish short stories! In this book you will find: Short stories from a variety of compelling genres, from science fiction and crime to history and thriller, so you'll have great fun listening while learning a wide range of new vocabulary! Stories broken down into manageable chapters, so you always make progress with the story and feel a sense of achievement without great difficulty listening! Realistic amounts of new vocabulary, so you're not overwhelmed by complex words. Instead of pausing to look up every word, you'll absorb new vocabulary from the context of the story and have the satisfaction of that moment when you say, "I totally understood that sentence!" Carefully written Spanish using straightforward grammar that is comprehensible for beginner and intermediate-level learners. You'll enjoy listening and learn new grammatical structures without feeling overwhelmed or frustrated. Plenty of natural dialogue in each story, so you can learn conversational Spanish while you listen and improve your speaking ability at the same time! Regular plot summaries, comprehension questions, and word reference lists, so help is always on hand when you need it. You'll be able to focus on enjoying listening and having fun rather than fumbling around with dictionaries and struggling through dense text with no support. A five-step plan for hearing the stories in this book the smart way. These step-by-step instructions show you exactly how to make the most out of the book and maximize your learning! Spanish Short Stories for Beginners has been written especially for students from beginner to intermediate level. The eight captivating stories are designed to give you a sense of fun while listening, so you can enjoy Spanish again!

Fun, fun, fun!!! Oh wow, so I've read a few of Mr. Richards' short stories in different languages (and about to start another one here shortly), and they are tons of fun and I honestly do believe that I am catching on to some words. I love the way he starts out with telling how the easiest way to try to learn it through reading, then to go back with a little bit more understanding, and then again as you catch on more. But he makes this learning fun! It's not the monotonous drowning of repeat the word over and over. I was fortunate to have received this book complimentary in exchange for my honest and unbiased review.

I wouldn't say beginners should read this, however if you've got a decent level in Spanish, it will be enjoyable, and there are still going to be things you won't know. Some critiques are that the glossary should be updated, really easy words are put in there (nerviosa, among others) while there are still words that basic level people wouldn't know. Also the ending to each short story leaves me wanting more on what will happen in their lives, especially the first one haha.

Great stories. Easy to read and understand. Love that there's a recap and literacy quiz at the end of each section and chapter. You can purchase the voice recordings/audiobooks on audible! It's a really great supplement to hear and read at the same time and to get the proper annunciation of words when you don't know them. Read out loud and you will get even more benefit from these stories.

Wonderful wonderful and more wonderful. When I was beginning to learn Spanish all we had was rosetta stone type of thing. This would of been great. The words help you learn the basic language but adding them into a story and that holds the persons interest. They are really nice. Very easy to follow and because the words are easy to read. They really help the person learn as they go. That is really great! The stories flow and have great plot content. They make me want to read another book. This is how learning should be. Just plain fun. I absolutely love it. I received this free in exchange for ahonest, unbiased and nonpaid review.

These books are great for building your confidence and impressing your friends. I always thought I had to be fluent in Spanish before I started to try and read Spanish but I have found that just as

when you read English you often skim many of the words and still comprehend it. So I read this one or two pages at a time and looked for the words I knew then I had the gist of the story and could review the vocab and the questions. After that I reread the whole chapter and looked up words I didn't know. Then I read it a third time all by myself. I couldn't believe I was reading a story in Spanish but it really felt good. The only down side is these stories aren't as interesting as some of the ones in other books of their kind. The stories are a bit juvenile in plot. On the plus side though they do have a nicer cover material than some books

This is a great book for beginners and intermediate readers. It has all the verb tenses, vocabulary and multiple choice test questions after every chapter. The book is made better by having a companion audible book you can purchase to here each chapter.

I have been wanting to start learning and reading in different languages and this was the perfect book to start off with. Stories are short and simple and easy to understanding a new language, nothing too complicated and uses standard grammar, no flashy big words for a novice to try to decipher. I received this at a discount for my honest review and opinion.
